2009 Activities Report December 21st - December 27th

FEMA Site Restoration Status 12/04/2009

PARK NAME	STATUS
McCue Playground	The concrete slab has been sanded and is now ready for striping and the additional saw cutting joints for extra stability. The contractor is also getting ready to perform the repairs to the concrete apron and sidewalk. As this is additional work required due to damages from pouring the large concrete slab, contracting and funding requests had to be submitted and processed. This work should begin very shortly.
St. Roch	FEMA met with the contractor this week to review the final details of the sewer line trenches. Because the indigenous soil under the majority of the site includes much debris, we will be removing some of the backfilled soil from the trenches and adding fresh fill to the area, re-compacting and re-seeding. Once the information is reviewed, FEMA will be notifying the contractor to proceed. Work should be completed shortly, provided there are no unforeseen delays. <i>Site is complete and ROC/turnover signed on 12-1-08.</i>
Hardin	The contractor is in receipt of the water fountain and is currently waiting on notification from the LA-ONE call that they have clearance to begin digging the trench for the new water line. Work should approximately take one week to complete, with a quick LA-ONE approval and no additional delays. <i>The site was visited on 6-18-09 and accepted by NORD. (acceptance letter in lieu of ROC)</i>

Happy Holidays

2009 Activities Report December 21st - December 27th

A.L. Davis	The site was visited on 6-18-09 and accepted by NORD. (acceptance letter in lieu of ROC)
Annunciation	The site was visited on 9-25-09 and accepted by NORD. (acceptance letter in lieu of ROC)
Avenger	The site was visited on 8-6-09 and accepted by NORD. (acceptance letter in lieu of ROC)
